I. STATEMENT OF WORK

A. INTENT

It is the intent of these specifications, terms and conditions for Alameda County Behavioral Health Care Services (hereafter BHCS or the County) seek bids for the provision of Alcohol and Other Drug (AOD) Primary Prevention programs for youth and families and older adult target populations.

Funding for these Primary Prevention programs is provided through the Federal Substance Abuse Prevention and Treatment (SAPT) Block Grant and other funds. Currently, there is a total of approximately two million dollars per year to implement all programs funded through this RFP.

BHCS intends to fund six youth and families programs (seventy-five percent (75%) of funds) and two older adult programs (twenty-five percent (25%) of funds) through this RFP. The contract award allocation shall be a maximum of \$250,000 for each program.

For the purposes of this RFP, contract awards made for youth and families will be by region. For the purposes of Primary Prevention programs, BHCS shall consider Oakland its own region for youth and families due to risk factors. The County regions for youth and families are defined in the table below:

Target Population	Regions				
	Oakland	North County	Central County	East County	South County
Youth and Families	Two programs (Each for a maximum of \$250,000)	One program for a maximum of \$250,000	One program for a maximum of \$250,000	One program for a maximum of \$250,000	One program for a maximum of \$250,000

Due to the limited funds, there will be no specific regional distribution of older adult programs. However, BHCS will consider a provider’s capacity to serve across cities and regions.

A single legal entity shall be responsible for the delivery of all products and services under any awarded contract through this RFP. BHCS shall disqualify bids submitted with subcontractors performing any portion of the services from moving forward in the evaluation process. Bidders may submit more than one proposal. Bidders may submit one proposal per region for youth and families and one proposal for older adults. A separate and complete proposal is required for each proposed youth and families and for older adult programs.

Any contract awarded to Bidders shall require the program to begin service delivery by April 1, 2012 and Contractor shall fully implement the program as described in this RFP as soon as possible, but no later than June 30, 2012. BHCS expects services delivered in school sites to provide summer school programming in the summer of 2012.

BHCS intends to award contracts, subject to annual review and renewal, to the Bidders whose responses best meet the County requirements for this RFP. BHCS shall evaluate proposals on criteria set forth in this RFP. BHCS shall recommend award of a contract to the responsible Bidder for each program whose response conforms to the RFP and whose bid presents the greatest value to the County, all evaluation criteria considered, to achieve BHCS’ desired outcomes.

The County may, but is not obligated to renew awarded contracts. Any renewal of the awarded contracts will be contingent on the availability of funds, Contractor performance and the continued prioritization of program activities and target populations by BHCS.

B. BACKGROUND

Alcohol and drug (AOD) prevention services are so essential to the overall effectiveness of an AOD service delivery system that the federal government has mandated that a set aside requirement of twenty percent (20%) of all Substance Abuse Prevention and Treatment (SAPT) funds be used for AOD Primary Prevention.

AOD issues have broad and significant impacts on the overall health and wellbeing of all Alameda County residents. These problems drive up costs throughout County systems and cause multiple levels of pain that are difficult to be monetarily quantify. Therefore, BHCS is committed to providing high quality, culturally responsive AOD prevention programming.

AOD Primary Prevention services play a critical role in BHCS' continuum of care. Primary Prevention services provide strategies to reduce or prevent AOD use or abuse among diverse individuals and change community conditions that contribute to AOD related issues.

C. SCOPE

Funding provided to Contractors through this RFP shall be used to provide Primary Prevention services in one or more specified regions as described in this RFP to youth and families or older adults who do not require treatment for substance abuse.

Services shall use at least one of the five Center for Substance Abuse Prevention (CSAP) strategies specified in this RFP paired with Indicated, Selected or Universal Institute of Medicine (IOM) categories, which best meet the needs of the targeted population. **The CSAP Information Dissemination strategy is NOT within the scope of this RFP. Additionally, BHCS will only consider the IOM Universal category within the scope of this RFP if it is proposed in conjunction with at least one of the other IOM categories.**

Services shall be culturally responsive to the characteristics and needs of the proposed target population such as age, race/ethnicity, gender and risk factors.

BHCS shall monitor contracts on a quarterly basis to ensure that sixty-five percent (65%) of Primary Prevention funds are allocated to direct services.

D. VENDOR MINIMUM QUALIFICATIONS

To be eligible to bid on this RFP, Bidders must meet all of the following criteria:

- a. Have regular and continuous Primary Prevention service provision experience (not including Information Dissemination strategy utilization) to Bidder's proposed target population(s) for at least three of the past five years; and
- b. Be a nonprofit corporation or public entity, as required by SAPT Block Grant guidelines¹; and
- c. Have experience with data collection and reporting to a government entity for at least three of the past five years.

¹ See United States Code (USC), Title 42, Chapter 6A, subchapter XVII, Part B, subpart ii, Section 300x-31 (a) (1) (E) and Code of Federal Regulations (CFR) Title 45, Part 96, Section 135 (a) (5).

BHCS will disqualify Bidders that do not meet these Vendor Minimum Qualifications from further evaluation of their proposal. Bidders who meet the minimum qualifications will move forward for evaluation and award of points.

E. SPECIFIC REQUIREMENTS

1. *Target Population(s)*

According to the SAPT Block Grant guidelines, “Primary Prevention includes activities directed at individuals who do not require treatment for substance abuse.” Within those guidelines, Primary Prevention services shall target either youth and families or older adult populations across County regions, as defined in this RFP. BHCS expects services to provide targeted approaches based on various risk factors, such as, but not limited to, high levels of poverty, violence, trauma and AOD use.

Youth and Families:

Services shall define youth and families target populations as individuals with an increased risk or incidence of substance use related issues. Examples of such populations may include, but are not limited to, the following:

- Youth in the foster care system;
- Children of substance abusers;
- Youth attending continuation schools; or
- Other schools with high rates of suspension, expulsion and/or truancy.

Since research has shown that services are more effective when youth and families are served together, youth and families services **must** include a family or parent component in the program. Family members may be the biological parents, foster parents, siblings, spouses, children, aunts, uncles, cousins, friends or anyone else whom the young person defines as his or her family member(s).

Regions for Youth and Families Only

Each of the five regions described in the table below shall have Primary Prevention programs targeting youth and families. Each selected program shall match the needs and characteristics of the target population selected in that particular region. Proposals that provide broader coverage across cities or districts within the region will be awarded higher points for target population criteria. The cities/unincorporated areas included in each region are in the table below:

Youth and Families Services		
Region	Defined as	Number of Contracts per Region
Oakland	Oakland	Two
North County	Alameda, Albany, Berkeley, Emeryville and Piedmont	One
Central County	Unincorporated areas of Ashland, Castro Valley, Cherryland and Cities of Hayward, San Leandro and San Lorenzo	One
Southern	Fremont, Newark and Union City	One
Eastern	Dublin, Livermore, Pleasanton and Sunol	One

Older Adults:

The older adult population is another group that faces risk for initial use and misuse of AOD. This risk is due to significant life changes that occur later in life. These changes include, but are not limited to, isolation or loss/change of roles due to (forced or chosen) retirement, changes in health status, and/or loss of a loved one(s).

BHCS expects older adult services to utilize models that target the older adult population who have increased risk or incidence of substance use related issues. Examples of such populations may include, but are not limited to, the following:

- Older adults who are isolated and/or homebound; or
- Older adults who have chronic health conditions; or
- Older adults who have experienced recent trauma or loss.

Older adult services shall not only address AOD issues, but the underlying mental and physical health issues that accompany aging.

Services that target older adults may be developed in any of the five above-mentioned County regions as long as a justification is provided for choosing the region(s). The limited funds available for older adult programs do not make a regional distribution feasible.

2. Substance Abuse Prevention Strategies

Services shall utilize at least one of the five below strategies the Substance Abuse and Mental Health Services Administration (SAMHSA) promotes for AOD Primary Prevention services². Please note that **Information Dissemination strategy is NOT** within the scope of this RFP.

BHCS expects the chosen strategy or strategies to match the needs, risk factors and characteristics of the target population. Services must use one of the following below strategies.

1. Education: This strategy uses the interaction between a facilitator/instructor and an audience, which aims to improve critical life and social skills and impact behavior to remain AOD free.
2. Alternative Activities: This strategy redirects individuals from potentially problematic settings to settings free of AOD.
3. Problem Identification and Referral: This strategy identifies individuals who have inappropriately used AOD and assesses whether their behavior can be reversed through education.
4. Community-Based Process: This strategy enhances a community's ability to provide AOD prevention and treatment.
5. Environmental: This strategy focuses on places and specific problems, with an emphasis on public policy.

For more information on the five specific strategies and examples, please see pages 12 through 14 of the BHCS Prevention Framework and Strategic Plan for Substance Abuse Prevention at <http://www.acbhcs.org/docs/youth/BHCS%20SP.pdf>.

3. Scientifically Defensible Models

All services shall be based on scientifically defensible models. For BHCS to consider a scientifically defensible, it must be based upon a recognized evidence-based, best or promising practice. Evidence-based models are models or practices with well-documented effectiveness. Best practices are a body of knowledge that may include scientific, practical or anecdotal elements and that is perceived as an effective method of treatment.

Examples of evidenced-based models are located at SAMHSA's National Registry of Evidence-based Programs and Practices (NREPP) website: <http://www.nrepp.samhsa.gov/>.

BHCS expects the chosen model to match the needs, risk factors and characteristics of the target population. Adaptations to services must be made in a way that maintains high fidelity to

² Definition source: Federal Register, Volume 58, Number 60, March 31, 1993.

the model. As recommended by CSAP and the U.S. Department of Education, all services shall show evidence of scientifically defensible Primary Prevention services through performance and outcomes measures.

Substance Abuse Prevention Intervention Categories

The Institute of Medicine (IOM), which provides information and advice on health and science policy, classified prevention interventions into categories. These categories are distinguished by the level of risk (from highest to least amount of risk) for disorder/distress experienced by various populations. Indicated or Selected categories described below must be considered when determining the target population to be served.

Services shall use one of the following categories based on the assessed risk experienced by the target population. BHCS expects the chosen category to match the strategy and the needs of the target population.

1. Indicated category intends to identify problems in their earliest stages to prevent long-term suffering. The mission of Indicated prevention is to identify individuals who are exhibiting early signs of substance abuse, serious mental health issues, and other associated behaviors and to provide appropriate services.
2. Selective category targets individuals or a subgroup of individuals whose risk of developing substance use disorders, serious mental health issues and/or other associated behaviors is significantly higher than average.
3. Universal category addresses the entire population (national, local community, school and neighborhood) with messages and programs aimed at taking action before behavioral health problems occur. Universal prevention programs are delivered to large groups without any prior screening for risk of serious mental health issues or substance abuse. The entire population is assessed as at-risk and capable of benefiting from prevention. This category may not be used in isolation.

BHCS shall accept proposals that focus on Indicated and Selected categories only. BHCS will reject proposals that identify the Universal category in isolation. However, since many evidence-based models incorporate one or more IOM categories in the program design, BHCS will accept proposals that include the Universal category as one component among several in an evidence-based program.

For more information on Indicated, Selective and Universal categories, please see page 15 of the BHCS Prevention Framework and Strategic Plan for Substance Abuse Prevention at: <http://www.acbhcs.org/docs/youth/BHCS%20SP.pdf>.

4. Data and Outcomes

All services shall be driven by at least two identified outcomes. Outcomes are defined as a change in attitudes, values, behaviors or conditions between baseline measurement and subsequent points of measurement. Depending on the nature of the intervention and the theory of change guiding it, changes may be short, intermediate and longer-term outcomes.

The outcomes shall be measurable and directly linked to the strategies, models and categories used in the services. BHCS expects services to have a developed data collection plan and to execute the plan to measure the program's impact on the identified outcomes. BHCS also expects that collected data is used to continuously improve services.

5. Culturally Responsive Services

Services shall be culturally responsive to the served target population and Alameda County's diverse communities. Services shall focus on populations that have an increased risk or incidence of substance use and related issues. Examples include, but are not limited to,

individuals who identify as lesbian, gay, bi-sexual, transgender, queer, questioning, intersex, two-spirited (LGBTQQI2-S); foster youth; children of substance abusers; youth attending continuation schools; youth attending other schools with high rates of suspension, expulsion and/or truancy; and individuals from specific racial/ethnic and linguistic groups such as African Americans, Asian/Pacific Islanders, Latinos, Native Americans and South Asians.

6. Collaboration

Service providers shall collaborate with other prevention efforts where AOD use exacerbates personal and community challenges. For example, various studies have documented the negative impact of AOD usage on issues such as violence and suicide. As such, Primary Prevention services shall collaborate with programs that work to prevent or reduce violence and suicide and/or increase emotional well-being.

Service providers shall also cooperate with behavioral health treatment services, as well as other community resources. This is a helpful resource for referring and linking individuals with needs beyond the scope of prevention services.

G. EVALUATION CRITERIA/SELECTION COMMITTEE

All proposals meeting minimum qualifications shall be evaluated by a County Selection Committee/Evaluation Panel (CSC). The CSC may be composed of County staff and other individuals that may have expertise or experience in AOD Prevention. The CSC shall recommend

Bidders for contract award in accordance with the evaluation criteria set forth in this RFP. The evaluation of the proposals for recommendation shall be within the sole judgment and discretion of the CSC.

All contact during the evaluation phase shall be through the BHCS contact person only. Bidders shall neither contact nor lobby evaluators during the evaluation process. Attempts by Bidder to contact and/or influence members of the CSC may result in disqualification of Bidder.

The CSC shall evaluate each proposal meeting the minimum qualification requirements set forth in this RFP. Bidders should bear in mind that any proposal that is unrealistic in terms of the technical or schedule commitments, or unrealistically high or low in cost, shall be deemed reflective of an inherent lack of technical competence or indicative of a failure to comprehend the complexity and risk of the County's requirements as set forth in this RFP.

As a result of this RFP, the County intends to award a contract to the responsible Bidder(s) whose response conforms to the RFP and whose bid presents the greatest value to the County, all evaluation criteria considered. The combined weight of the evaluation criteria is greater in importance than cost in determining the greatest value to the County. The goal is to award a contract to the Bidder(s) that proposes the County the best quality as determined by the combined weight of the evaluation criteria. The County may award a contract of higher qualitative competence over the lowest priced response.

Each section of the proposals will be evaluated according to the evaluation criteria specified below. However, other criteria may be added to further support the evaluation process whenever such additional criteria are deemed appropriate in considering the nature of the services being solicited.

Each of the Evaluation Criteria below shall be used in ranking and determining the quality of proposals. Proposals shall be evaluated according to each Evaluation Criteria, and scored on a five-point scale shown below. The scores for all the Evaluation Criteria shall then be added according to their assigned weight, as shown below, to arrive at a weighted score for each proposal. A proposal with a high weighted total shall be deemed of higher quality than a proposal with a lesser-weighted total. The final maximum score for any program is five hundred fifty (550) points .

The evaluation process may include a two-stage approach including an initial evaluation of the written proposal and preliminary scoring to develop a short list of Bidders that shall continue to the final stage, which may include oral presentation and/or interview and reference checks. The preliminary scoring shall be based on the total points, excluding points allocated to references, oral presentation and interview.

If the two-stage approach is used, Bidders receiving the highest preliminary scores and with at least 250 points shall be invited to an oral presentation and/or interview. Only the Bidders meeting the short list criteria shall proceed to the next stage. All other Bidders shall be deemed eliminated from the process. All Bidders shall be notified of the short list participants; however, the preliminary scores at that time shall not be communicated to Bidders.

The zero to five-point scale range is defined as follows:

0	Not Acceptable	Non-responsive, fails to meet RFP specification. The approach has no probability of success. If a mandatory requirement this score shall result in disqualification of proposal.
1	Poor	Below average, falls short of expectations, is substandard to that which is the average or expected norm, has a low probability of success in achieving objectives per RFP.
2	Fair	Has a reasonable probability of success, however, some objectives may not be met.
3	Average	Acceptable, achieves all objectives in a reasonable fashion per RFP specification. This shall be the baseline score for each item with adjustments based on interpretation of proposal by Evaluation Committee members.

4	Above Average/ Good	Very good probability of success, better than that which is average or expected as the norm. Achieves all objectives per RFP requirements and expectations.
5	Excellent/ Exceptional	Exceeds expectations, very innovative, clearly superior to that which is average or expected as the norm. Excellent probability of success and in achieving all objectives and meeting RFP specification.

The Evaluation Criteria and respective weights are as follows:

H. EVALUATION AND ASSESSMENT

During the initial sixty (60) day period of any contract, which may be awarded to a successful Bidder ("Contractor"), the CSC and/or other persons designated by the County may meet with the Contractor to evaluate the performance and to identify any issues or potential problems.

The County reserves the right to determine, in its sole discretion, (a) whether Contractor has complied with all terms of this RFP and (b) whether any problems or potential problems are evidenced which make it unlikely (even with possible modifications) that the proposed program and services will meet the County requirements. Such assignment shall be made and become effective at the time the purchasing body tenders final payment to the Bidder.
- 10. **No guarantee or warranty:** The County of Alameda makes no guarantee or warranty as to the condition, completeness or safety of any material or equipment that may be traded in on this order.

- Under **Annual Salary:** This salary should reflect the annualized cost of the position. This reflects what the position would earn working 40 hours per week for a year.
- Under **TOTAL % FTE:** If a full time equivalent (FTE) is less than 40 hours at the agency, your full time salaries should be extrapolated to a 40-hour a week base.
 - *Example: Your staff member works 37.5 hours a week for full time with an annual salary of \$30,000. If this individual were working 40 hours a week, the annualized salary would be \$32,000. This is the salary to use on this form. This individual would be .9375 FTE.*

(b) if a person works a total of 20 hours a week for the agency, but is projected to work in two programs for 10 hours each, then each program would be 25% FTE. (c) if a person works 37.5 hours per week in one program and this is considered full time, then this would be 93.75% FTE using a 40 hour per week base).*
 - In no instance should one individual staff member exceed 100% FTE on a 40 hour per week basis. The total for each program is automatically calculated.
- Under **Salary**: Determine the salary for each position by the following formula:
 - **Annualized Salary** divided by 12 times the number of months the position is funded times the percent FTE.
 - The total for each program is automatically calculated in **Total FTE/SALARIES**. If an individual has mixed status, the FTE and salary should be shown separately for each status.
- Under **EMPLOYEE FRINGE BENEFITS**: Enter the amounts to be allocated for each fringe benefit on the appropriate line items.
 - Total of fringe benefits of this program is automatically calculated.
- **Total Personnel Expenses**: The sum of Total Salaries/FTEs and Total Fringe Benefits is automatically calculated.
