**12:30** Nathan Hobbs, the Alcohol and Drug Program Administer for BHCS, will discuss a new grant funded pilot-program at Santa Rita Jail that will provide Medication Assisted Treatment ("MAT") to inmates suffering from opiate addiction and related substance use disorders. The program is designed so that individuals entering custody on MAT and those prescribed MAT for the first time in custody will be able to continue this treatment. Specific project activities will include SUD group and individual counseling, educational programming, prerelease case management and referral into outpatient treatment upon release. This is an exciting development in Alameda County which the committee will benefit from knowing about.
