Pre-registration is required and seats are limited!

Registration deadline: Wednesday, May 24, 2017

Conference Goals:

1. Demonstrate benefits of integrating primary and behavioral health care.
2. Equip providers with skills/tools and models to coordinate with primary care to implement an integrated “whole child” approach to treatment.
3. Give providers the information and resources to offer culturally competent care to children and youth.

Learning Objectives: At the end of this conference, participants will be able to:

- Manage the “land,” language and culture of primary care professionals.
- Introduce a behavioral health/primary care integration practice to their clinic/agency.
- Explore unique behavioral health needs of youth and families with complex and chronic medical conditions.
