### WHAT IS WRAPAROUND?

Wraparound is an intensive, holistic method of engaging with children, youth and families with complex needs through a defined model of care. Wraparound is not treatment *per se*, Wraparound is an intensive, individualized care planning and management process aimed at achieving positive outcomes through structured, creative and individualized team planning. Perspectives of the family, including the child and youth are given priority importance during all phases and activities of Wraparound. Over the course engagement, the Wraparound programs work to develop a team of natural supports to be available to the youth and family after the Wraparound services are no longer in place. Wraparound takes place in 4 Phases:

<b>Phase 1:</b> Engagement and Team Preparation	<b>Phase 3:</b> Implementation
<b>Phase 2:</b> Initial Plan Development	<b>Phase 4:</b> Transition
