Effective for dates of service on or after 10/1/22

This list contains all ICD-10-CM codes currently available in InSyst SUD, however not all codes are appropriate for use on DMC-ODS claims. **Only SUD diagnoses on this list that are in the current version of the DSM at the time of the claim should be used (e.g. F10.129 is not in the current version of the DSM-5 and should not be used).**

ICD-10-CM codes Z55 to Z65 may be used by all providers as appropriate during the assessment period prior to diagnosis. Codes Z55 to Z65 may be used after the assessment period when an adolescent beneficiary does not meet criteria for a DSM-5 SUD diagnosis.

No SUD codes were removed from InSYST during the most recent update.
