

Frequently Asked Questions #2

What are the transition steps for Providers that will not have DMC-ODS contract?

On an interim contract Provider will continue to work with clients over the next 3 months, working with BHCS Transition Coordinator to gradually transition beneficiaries who will need SUD services post 10/1/18 to the new DMC-ODS programs - continue to use the old RU# and old procedure codes during their transition period (Medi-Cal billing will be turned off for this 3 month period).
